BIOLOGICAL PSYCHOLOGY

Volume contents

Volume 42 (1996)

Numbers 1,2

Special issue: Interoception and behavior

D. Vaitl, Interoception 1

W. Jänig, Neurobiology of visceral afferent neurons: neuroanatomy, functions, organ regulations and sensations 29

H. Mittelstaedt, Somatic graviception. 53

R. Schandry, P. Montoya, Event-related brain potentials and the processing of cardiac activity. 75

D. Vaitl, H. Gruppe, R. Stark, P. Pössel, Simulated micro-gravity and cortical inhibition: a study of the hemodynamic-brain interaction 87

H. Rau, J.J. Furedy, T. Elbert, PRES- and orthostatic-induced heart-rate changes as markers of labile hypertension: magnitude and reliability measures. 105

G. Fehm-Wolfsdorf, D. Nagel, Differential effects of glucocorticoids on human auditory perception 117

M.L. Ferguson, E.S. Katkin, Visceral perception, anhedonia, and emotion 131

M. Myrtek, G. Brügner, Perception of emotions in everyday life: studies with patients and normals 147

A. Ehlers, P. Breuer, How good are patients with panic disorder at perceiving their heartbeats? 165

V.-E. Kollenbaum, B. Dahme, G. Kirchner, 'Interoception' of heart rate, blood pressure, and myocardial metabolism during ergometric work load in healthy young subjects 183

R. Hölzl, L.-P. Erasmus, A. Möltner, Detection, discrimination and sensation of visceral stimuli 199

B. Dahme, R. Richter, R. Mass, Interoception of respiratory resistance in asthmatic patients 215

R. Schandry, C. Leopold, M. Vogt, Symptom reporting in asthma patients and insulin-dependent diabetics 231

Number 3

Special issue: Psychophysiology of workload

E.A. Byrne, R. Parasuraman, Psychophysiology and adaptive automation 249

R.A. Henning, S.L. Sauter, Work-physiological synchronization as a determinant of performance in repetitive computer work 269

R. Rau, Psychophysiological assessment of human reliability in a simulated complex system 287

W. Boucsein, W. Ottmann, Psychophysiological stress effects from the combination of night-shift work and noise 301

J.A. Veltman, A.W.K. Gaillard, Physiological indices of workload in a simulated flight task 323

T.L. Morris, J.C. Miller, Electrooculographic and performance indices of fatigue during simulated flight 343

J.B. Brookings, G.F. Wilson, C.R. Swain, Psychophysiological responses to changes in workload during simulated air traffic control 361

M. Myrtek, D. Weber, G. Brügner, W. Müller, Occupational stress and strain of female students: results of physiological, behavioral, and psychological monitoring 379

G. Robert, J. Hockey, R.L. Payne, J.T. Rick, Intra-individual patterns of hormonal and affective adaptation to work demands: an $n = 2$ study of junior doctors 393

H. Zeier, P. Brauchli, H.I. Joller-Jemelka, Effects of work demands on immunoglobulin A and cortisol in air traffic controllers 413

R.F. Burton, J.W. Hinton, E. Neilson, G. Beastall, Concentrations of sodium, potassium and cortisol in saliva, and self-reported chronic work stress factors . . . 425

C. Korunka, K.H. Huemer, B. Litschauer, B. Karetta, A. Kafka-Lützow, Working with new technologies: hormone excretion as an indicator for sustained arousal. A pilot study 439

Author index **453**
Subject index **455**
Volume contents **457**
